auDA Industry Advisory Panel

Registry Operator

To the auDA Industry Advisory Panel,

Crazy Domains would like to respond directly to: Issue 1. The method of 2LD registry operator selection/appointment post-2014

We support Draft Recommendation 1A, and more specifically, part b) auDA should initiate renegotiations with AusRegistry to extend contractual arrangements for 2, 3 or 4 years.

To best ensure a competitive contract renegotiation process and maximise the return on investment for the Industry as well as all Australian Internet community, our preference is that auDA extends the contractual arrangements for a full 4-year term.
Regards,

Gavin Collins
Managing Director
