Q4 2022 Quarterly Report
We acknowledge the Traditional Custodians of country throughout Australia and their connections to land, sea and community. We pay our respect to their elders past and present, and extend that respect to all Aboriginal and Torres Strait Islander peoples today.

.au scorecard ...................... 7
In this report, we reflect on another successful quarter for auDA. Over the period, there was continued focus on .au direct – our most popular namespace for new registrations during the quarter.

**With more than 716,000 .au direct registrations from its launch in March to December, .au direct has changed the face of domain names in Australia.**

It has delivered an innovative, new option for registrants, in particular for not-for-profits and individuals. This strong community take-up demonstrates ongoing trust and confidence in the .au – an area of strategic focus for auDA.

To further drive trust and confidence in the .au during Q4, we carried out a range of security focused initiatives. These included a crisis simulation exercise to test our cross-functional responses, and briefings to registrars on data protection regulatory reforms to support best practice data management across the .au ecosystem.

We also lent our expertise to the 2022 CSO Security Summit, where auDA Chief Technology Officer (CTO) Adam King spoke on a panel about domain name security and mitigating cyber threats. Meanwhile, our Compliance Team was focused on further reducing DNS abuse in the .au through their rolling audit activity, a priority area in our [2022–23 Compliance Plan](#).

The importance of cyber security was highlighted in our [Digital Lives of Australians 2022](#) research report, also delivered in Q4. The research noted the ongoing need for government, industry, business and education sectors to equip Australians with cyber security information and resources. Digital skills emerged as another area that would benefit from additional effort and cross-industry support. The report was launched via a webinar panel discussion with industry leaders on the impact of the findings and how Australian industry and government can work to improve online outcomes for Australians. We will continue to share the findings and encourage industry to invest in solutions to further Australia’s digital capability.
We were honoured to sponsor NetThing, Australia’s Internet Governance Forum, again this year and have auDA representatives speak on topics including multi-stakeholder internet governance, internet fragmentation and DNS abuse.

In addition to NetThing, we engaged broadly with the international internet community over the period. Key highlights included participation on a technology operations panel at the ICANN Contracted Parties Summit, connecting with peers at the 82nd Asia Pacific Top Level Domain Association (APTLD82) Members Meeting and virtual attendance at the 17th Annual Internet Governance Forum (IGF), which focused on a resilient internet for a shared sustainable future.

We were also delighted to have Chris Chapman, recently appointed ICANN Board Director, join auDA and .au registrars for an end of year event. We share Chris’ passion for upholding a unified, global internet through the work of ICANN and the broader internet naming and numbering sector and thank him for joining us.

Engagement with our .au membership community continued throughout Q4 with networking events in Sydney, Adelaide and Geelong, and two online cyber security workshops for members, which we co-hosted with Cynch Security. In the quarter, we also published key insights from our 2022 .au member survey.

Following feedback from the survey, we are excited to bring an expanded events program to members in 2023, including events in regional cities and more workshop opportunities.

In October, we announced changes to our Board composition with James Atkins, Kate Cornick and Tania Fryer retiring and the appointment of five Appointed Directors; Sandra Davey, Peter Elford, Matthew Healy, Sandra Hook and Alice McCleary. In November, at auDA’s AGM, we also announced the election of three Elected Directors Wendy Thorpe, Mike Trovato and Angelo Giuffrida. I thank our departing Directors for their contributions to auDA and welcome the appointment and election of our new and continuing Directors.

The quarter and the year was rounded out with a final Board meeting in December and meetings of the General and Technical Advisory Committees.

Alongside our Board, the auDA Team looks forward to building on the many successes of 2022 and delivering further value for all Australians in 2023.
Quarter at-a-glance
Timeline of key milestones and events

3 Oct
.au direct names that did not receive a priority application released from priority hold and available for registration by the public (21:00 UTC)

10 Oct
.auDA Board meeting
.auDA Foundation Board meeting

11 Oct
Community webinar: .au direct update

12 Oct
Announced five Directors appointed to the .auDA Board and five candidates for the Elected Director Ballot

13–14 Oct
.auDA Registrar Summit in Victoria

18 Oct
.au member virtual workshop with Cynch Security

14 Nov
edu.au Advisory Committee (EAC) meeting

16 Nov
.auDA AGM held and three Directors elected to the .auDA Board

17 Nov
Community webinar: Digital Lives of Australians 2022 research report launch

18 Nov
.au member virtual workshop with Cynch Security

20 Oct
2021–22 Annual Report released

26 Oct
.au member event in Adelaide

27–28 Oct
.auDA sponsorship and participation at NetThing 2022

28 Nov–2 Dec
.auDA participated at 17th IGF

29 Nov
Registrar end of year event

6 Dec
Technical Advisory Standing Committee (TASC) meeting

7 Dec
.auDA Board Meeting

10 Oct
.auDA CTO spoke at CSO Security Summit 2022

13–14 Oct
.auDA Registrar Summit in Victoria

14 Nov
.Edu.au Advisory Committee (EAC) meeting

15 Nov
Elected Director Ballot closed

16 Nov
.auDA AGM held and three Directors elected to the .auDA Board

17 Nov
Community webinar: Deciphering the DNS with the Cyber Security CRC

18 Nov
.au member virtual workshop with Cynch Security

20 Oct
.auDA Compliance Manager spoke at APTLD82

22 Nov
.au member event in Geelong

29 Nov
.Q3 2022 report released

26–27 Oct
.au member virtual workshop with Cynch Security

28 Nov–2 Dec
.auDA participated at 17th IGF

29 Nov
Registrar end of year event

10 Oct
.auDA CTO spoke at CSO Security Summit 2022
